Mr. Doug Egan, Chairman
Competitive Power Ventures
8403 Colesville Road, Suite 905
Silver Springs, MD 20910

Dear Chairman Egan:

On behalf of the Mayor's Office and the residents of Woodbridge Township, I am writing to express our sincere appreciation for the extraordinary outreach CPV has initiated with Woodbridge Township students as part of the *CPV Educates* energy education program.

I am advised that *CPV Educates* classroom lessons have been a huge success in the 4th grade classes at Lafayette Estates School #25 in Fords and Port Reading School #9 in Port Reading. The informative and interactive teaching module is a relevant addition to our School District's science curriculum, and we appreciate CPV offering these curricula to our schools and look forward to expanding the number of students that will benefit from this excellent resource.

For the second year in a row, CPV was a key participant at our annual Woodbridge Student Career Fair. Introducing Woodbridge Township students and young-adults to the workforce is a major initiative of my Office – this year, more than 300 students had the opportunity to learn about careers offered by CPV and the energy industry. Thank you for CPV's commitment to our youth.

Lastly, but most certainly not least, CPV's participation in the MAC-E Principal for a Day program at Lafayette Estates School #25 was a huge success. The presentation about the CPV Woodbridge Energy Center, classroom lessons, judging our science fair, and bucket loader presentation was insightful for students and faculty.

Beyond the educational initiatives, the CPV Woodbridge Energy Center has been a "game-changer" for Woodbridge Township. The expected \$65 million in tax and revenue from the Project allows the Township to upgrade some 30 school district facilities and infrastructure - many in dire need both as the result of age and recent storm damage. The Woodbridge Township School District Facilities Improvement Project has undertaken the installation of a new Stadium and Field House at Woodbridge High School, new synthetic turf football and soccer fields at Colonia and John F. Kennedy FK High Schools, and air conditioning in our high school and middle school auditoriums – all projects which benefit the entire Woodbridge Township community.

We truly appreciate all CPV has contributed to improving the Woodbridge community, in particular our school district facilities and infrastructure, and we look forward to continuing this successful partnership for many years into the future.

Sincerely yours,

John E. McCormac, Mayor
Woodbridge Township
